Commissioner for Patents

1. The reply filed on February 10, 2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant was required to elect a species and several subspecies. Applicant pointed out that claims 1-3, 5-7, 11-37 read on the elected species. Applicant then points out that claims 1, 2, 5-7, 11-13, 15-23, and 27-37 are generic. It is unclear how all of these claims are generic. Some of the generic claims are clearly not generic and read on non-elected sub-species, even though they are included in the list of elected claims. Please review the claims and determine which claims are generic and which read on the elected species. As pointed out in the Restriction requirement, a reply to the restriction requirement must include an identification of the species that is elected consonant with this requirement, and a list of all claims readable thereon. If applicant traverses on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. See 37 CFR 1.111. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
